Executive Summary

Strategic and innovative IT Executive with over 18 years of leadership experience aligning enterprise technology with business growth objectives across SME sectors including manufacturing, chemicals, trading, agriculture, and field services. Recognized for delivering end-to-end digital transformation through ERP, CRM, HRIS, cloud, and analytics platforms.

Experienced in driving enterprise-wide architecture initiatives using the TOGAF framework to ensure business-IT alignment, scalability, and agility. Strong capabilities in IT governance and risk management, implementing ITIL practices, ISO 27001 controls, and the NIST Cybersecurity Framework to ensure operational security, compliance, and business continuity.

Proficient in building and securing high-performance IT ecosystems, leading cross-functional teams, managing strategic vendors, and optimizing operational efficiency. Champion of AI and data-driven innovation, with experience deploying machine learning models for predictive analytics and business process automation. Trusted advisor to C-level leadership for technology investment and transformation strategy.

Core Competencies & Technical Strengths

IT Strategy & Governance

- Enterprise IT Strategy & Planning (TOGAF-aligned)
- IT Governance Frameworks: ITIL v4, COBIT, ISO 20000, ISO 27001
- NIST Cybersecurity Framework Implementation
- IT Budgeting, Policy Design, & Execution
- Digital Transformation & Business-IT Alignment
- IT Service Management (ITSM), SLA/OLA Management

Enterprise Systems & Business Solutions

- ERP: Acumatica, SAP (S/4HANA, B1, RISE), Goodwill iDempiere, Proint
- CRM & Loyalty Systems: Acumatica CRM, TADA Integration
- HRIS & Payroll: Andal, GreatDay, SAP HR, Cloud HRIS
- Business Intelligence: Power BI, SQL Server Reporting Services (SSRS)
- Custom Enterprise App Development: Odoo, Nextcloud

Cybersecurity & Risk Management

- IT Security Policy & Procedure Development
- SIEM Implementation: Wazuh, AlienVault, Windows Defender
- Network Security Hardening: Snort, Suricata, OpenVPN, Firewall (pfSense, Mikrotik)
- Disaster Recovery Planning & Execution

Infrastructure & Cloud Technologies

- Infrastructure Management (on-premise, hybrid, cloud)
- Virtualization: Proxmox, VMware
- Cloud Platforms: AWS (EC2, S3), Microsoft 365, Google Workspace
- Network & Server Administration: Windows Server, Linux (Ubuntu, CentOS)
- Backup Strategy: Multi-Tier Backup System (On-prem + Cloud)

Project & Change Management

- Project Portfolio Management (Jira, OpenProject)
- Agile / Hybrid Methodologies

- Vendor & Contract Management
- Business Process Reengineering
- Change Management & Stakeholder Engagement

Artificial Intelligence & Data Initiatives

- AI-Driven Sales Forecasting (ML-based)
- Data Warehousing & Big Data Integration
- External Data Integration: Climate (BMKG), GIS, BPS
- Predictive Analytics & Automation

Soft Skills & Leadership

- Executive Stakeholder Communication
- Team Development & Cross-Functional Leadership
- Strategic Decision-Making & Problem Solving
- Negotiation, Influencing, and Business Acumen

Professional Experience

Solution Architect – PT Sunartha Putra Mandiri (Freelance/SME) | Jakarta | 2025–present

Designed enterprise solutions on Acumatica & Odoo for shipping, shipyard, and logistics sectors.
Coordinated multi-vendor teams to deliver scalable, secure IT platforms.

IT Strategic Advisor – PT ASA Panca Cipta Optima (PESTIGO.ID, Co-Founder) | Bogor | 2022–present

Directed design and rollout of Odoo-based ERP for pest management operations.
Managed full ERP lifecycle: pre-sales, sales, service, finance, and inventory.

Head of IT – Adaro Minerals Indonesia | Jakarta | 2025

- Directed IT Infrastructure and service desk operations across mining operations.
- Implemented **SAP Rise migration roadmap** integrated with core infra.
- Established **SLA-driven IT Service Desk** using ManageEngine; improved ticket resolution times.
- Built **real-time monitoring systems** integrated with logistics and coal hauling operations.
- Coordinated vendor management and budgeting for infra upgrades.
Impact: Improved infra readiness, reduced downtime, and increased resilience of critical systems.

Senior IT Manager – PT Lam Seng Hang Indonesia | Jakarta | 2024 – 2025

- Oversaw infrastructure and SAP B1 architecture enhancements across finance and manufacturing.
- Introduced **Disaster Recovery Procedures** with off-site replication.
- Automated reporting workflows and reduced manual infra monitoring.
- Managed helpdesk team supporting 300+ employees across multiple offices.
- Coordinated IT vendor contracts and service agreements for infra operations.
Impact: Increased system uptime, ensured audit readiness, and cut infra costs by 15%.

Head of IT – Agricon Group | Bogor | 2016 – 2024

- Directed IT infrastructure and operations across **6 subsidiaries** (manufacturing, FMCG, services).
- Implemented **hybrid Microsoft 365 cloud** for collaboration and resilience.
- Built and enforced **SIEM-based cybersecurity framework** (Wazuh, AlienVault).
- Designed and implemented **multi-tier backup & DRP** using AWS + on-premise.
- Managed **Acumatica ERP–CRM–Loyalty ecosystem** with integrated BI dashboards.
- Supervised infra and helpdesk teams across head office and branch offices.
- Negotiated vendor contracts and implemented cost control measures.
Impact: Reduced IT OPEX by ~30%, strengthened security posture, and increased uptime across operations.

IT Manager – PT Agricon Putra Citra Optima (Terminix Indonesia) | Bogor | 2007 – 2016

- Designed and deployed **Branch Operational System (BOS)** supporting 25+ branches.
- Built nationwide **infrastructure backbone** (servers, VPNs, branch networks).
- Led **helpdesk/service desk operations** with SLA metrics and performance tracking.
- Coordinated with business units to align infra projects with operational needs.
- Implemented system monitoring and automated maintenance schedules.

Impact: Enabled nationwide operations expansion, standardized infra, and improved support delivery.

ERP Consultant – PT Data Prima Graha Pratama | Jakarta | 2004 – 2007

- Delivered ERP system implementations with full infra readiness planning.
- Authored **BRD/FSD documentation**, managed UAT, and guided end-user adoption.
- Supported infra teams to prepare server, storage, and desktop environments.

Additional Projects

- **Systigo (Co-founder, Advisor)** – Built Odoo-based ERP system for pest management (infra + apps).
- **Jaya Konstruksi** – Designed project cost control system with ERP integration.
- **PT KRL Commuter Line (SIDAT project)** – Built data integration platform with infra scaling.
- **Directorate General of Oil & Gas (ESDM)** – Implemented import plan management system (RKBI).

Key Achievements

- Delivered **10+ ERP & infra modernization programs** across industries, improving process efficiency by 40%.
- Developed **AI-ready forecasting platform** by integrating sales, climate, and demographic data.
- Implemented SLA-driven helpdesk systems reducing incident resolution times by up to **35%**.
- Established DRP frameworks ensuring **business continuity** for mission-critical systems.
- Designed and managed infra for **25+ branch offices** nationwide, enabling expansion to 35 branches nationwide.
- Migrated group-wide collaboration to **Microsoft 365 hybrid cloud**.
- Reduced IT costs while improving uptime and resilience of infra systems.
- Managed **multi-million IDR budgets**, ensuring ROI across infrastructure, ERP, and transformation initiatives.
- Cut operational costs by **30%** through IT integration and vendor negotiations.
- Designed and implementation **operational BOS** system for Terminix for more that 30 branch nation-wide

Education

- **Bachelor of Computer Science (Information Systems)** – Gunadarma University (GPA 3.33 / 4.0)

Certifications & Training

- ITIL® Foundation Certificate
- ISO 9001:2015 Internal Auditor – TÜV SÜD
- Project Management (PMBOK v5 – Multimatics)
- Agile/Scrum Methodologies
- Effective Project Management – Phitagoras
- Linux Administration,
- Business English

Technical Skills

- **Infrastructure:** Windows Server, Linux Server, CentOS, Proxmox, VMware, VPN, LAN/WAN

- **Security:** SIEM (Wazuh, AlienVault), Firewalls, ID/PS, Endpoint Mgmt, DRP
- **Monitoring Tools:** PRTG, Lansweeper, ManageEngine, Zabbix, Prometheus, Veam
- **ERP/Apps:** SAP S4/HANA, SAP B1, Acumatica, Odoo, HRIS, CRM
- **Collaboration:** Microsoft 365, Google Workspace, Nextcloud, Moodle
- **Analytics:** Power BI, SQL DW, SSRS, Data Warehouse
- **Project Mgmt Tools:** Jira, OpenProject, ManageEngine, GLPI
